Asthetically, Sumatians are provided with numerous opportunities to showcase as well as develop their talents. The Art Elective Programme gave students opportunities to experience new and different art forms.

The plethora of co-curricular programmes that the school has carried out is a testimony of our commitment to nurturing our students to be well-rounded and balanced individuals, equipped with skills and values to face the ever-changing demands of the 21st century.

To our departments and staff, I applaud their efforts in working with our pupils to give them opportunities to enjoy a variety of learning experiences which they have undoubtedly benefited tremendously from.

The credit for the wonderful academic results, firstly goes to all my teachers and secondly to the students themselves. I would like to thank all my Heads of Department and teachers for their hard work and commitment they have put into help and guide our students to achieve the good results. Our support staff has also done an excellent job in complementing our teachers. From the core of my heart I am very much thankful to them.

Sumatians must rise to the challenges and seize the opportunities provided by the school to experience, learn and grow. In closing, I would like all Sumatians to remember the following:

"This moment is yours and yours alone! Take charge, seize this moment and allow it to propel you to the high levels of an empowered life."

Thank you all for kind support.
